The New Site Discount is a 50% off first purchase discount code offered by Wix. This code is not available all the time, they have certain days each month where they offer this promotion. There is no guarantee which days or when this will be offered, however, I will always keep an eye out during the design process and alert you once available to take advantage of these savings.

You are responsible for your hosting fee payment directly to Wix. These fees do not include your domain costs. Wix may change these fees at any time without notice. Prototype Media Group is not responsible for any change in costs, discounts available or payments for your Wix hosting plan. You may upgrade your plan at anytime if your business needs change in the future, and Wix will give you a credit for any time you have left on your remaining plan. The New Site Discount would not apply to upgrades.
